Repair, Rotable & Exchange Program

Sensata has the ability to work with you to ensure you have the airworthy article you need through the Repair & Exchange Program. At our Thousand Oaks, California facility, we provide product inspections, testing, major and minor repairs, overhaul of Kavlico brand LVDTs, RVDTs, Force Transducers and Cockpit Controls.

Depending on the failure mode, Sensata offers minor and major repairs in order to lower life cycle maintenance. Rotable pools and exchanges are available.

Repair Time

Product	Minor Repairs	Major Repairs
Force Transducers	10 Days	15 Days
LVDTs (single channel)	10 Days	15 Days
LVDTs (multi-channel)	15 Days	21 Days

* Repair time is dependant on receipt of approval
