

## MXC & GXC: CAN-BUS ENABLED SMART-TACTORS

### Background

Contactors are a critical safety component in many modern systems and applications including electric vehicles, energy storage systems, smart grid, renewables, and charging systems. Most contactors on the market today simply open and close a high voltage, high current circuit. Some offer additional features such as AUX feedback to report the contactor position or status. This type of technology has been around for many years. Due to the location of contactors in the system, they have the potential to provide a wealth of data and information that can be leveraged to make informed decisions.

Cutting-edge customers continue to push the envelope and demand to know what is happening in the system in real-time so they can perform predictive analytics, improve system up-time, and make performance decisions “at the edge”.

### Solution

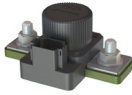

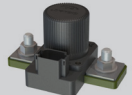

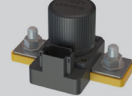

High performance, CAN-bus enabled contactors from Sensata GIGAVAC are ideal for these applications. Sensata GIGAVAC is an innovator with its robust hermetic sealing technology and a partner of choice with its strong engineering support and commitment to world class operations. The new MXC and GXC Series of CAN-enabled contactors offer a great amount of valuable data, information, and performance features like never before. OEM's and integrators can now tap into the CAN-bus to easily monitor current, terminal voltage, control voltage, temperature, contactor state, and cycle count. They can also configure under-voltage and over-voltage setpoints, define over-current trip points, define the power-up state, and establish a delay-on-break. The MXC & GXC are perfect for datalogging, telematics, and predictive maintenance and are essential during R&D, prototyping, test, and development phases of any new application, project, or program. With an available DBC file, designers can be up and running in minutes with plug-and-play simplicity.

*... perfect for datalogging, telematics, and predictive maintenance...*

## RECOMMENDED PRODUCTS

Product	Function	Features	Brand
 MXC15	350A, 48V	Great for low voltage, low current applications. Low profile installation and chassis mount main terminals make packaging easy	Gigavac
 MXC16	600A, 48V	Ideal for low voltage, high current applications, or where multiple loads pass through the same power distribution contactor	Gigavac
 GXC15	350A, 800V	Well suited for high voltage applications that require real-time monitoring for safety and performance	Gigavac
 GXC16	600A, 800V	Excellent for high voltage, high current applications that require maximum power throughput and critical performance	Gigavac

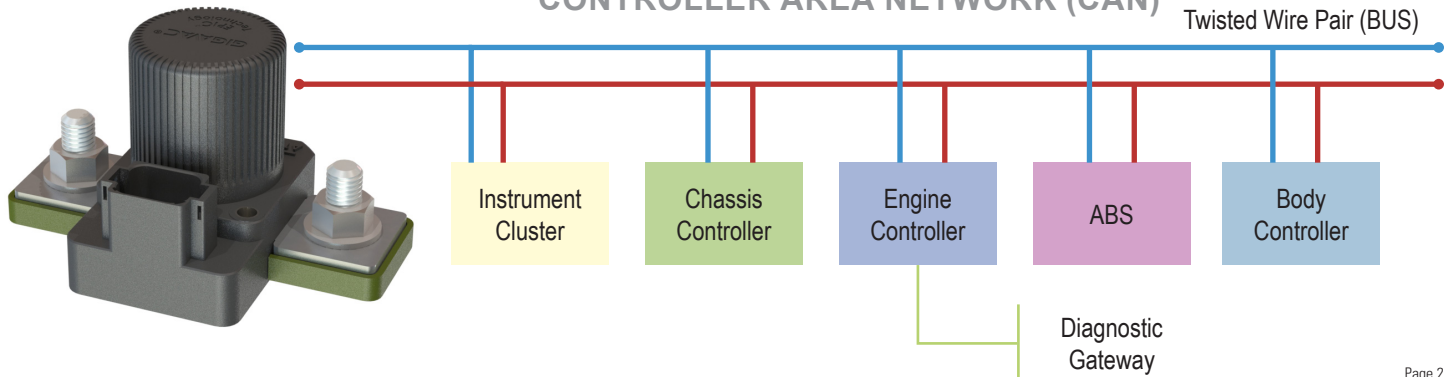

## SMART-TACTOR APPLICATION

- Data Logging
- Flight Recorders
- Telematics
- Prototyping
- Remote Diagnostics

### CONTROLLER AREA NETWORK (CAN)

Sensata Technologies, Inc. ("Sensata") data sheets are solely intended to assist designers ("Buyers") who are developing systems that incorporate Sensata products (also referred to herein as "components"). Buyer understands and agrees that Buyer remains responsible for using its independent analysis, valuation, and judgment in designing Buyer's systems and products. Sensata data sheets have been created using standard laboratory conditions and engineering practices. Sensata has not conducted any testing other than that specifically described in the published documentation for a particular data sheet. Sensata may make corrections, enhancements, improvements, and other changes to its data sheets or components without notice.

Buyers are authorized to use Sensata data sheets with the Sensata component(s) identified in each particular data sheet. HOWEVER, NO OTHER LICENSE, EXPRESS OR IMPLIED, BY ESTOPPEL OTHERWISE TO ANY OTHER SENSATA INTELLECTUAL PROPERTY RIGHT, AND NO LICENSE TO ANY THIRD PARTY TECHNOLOGY OR INTELLECTUAL PROPERTY RIGHT, IS GRANTED HEREIN. SENSATA DATA SHEETS ARE PROVIDED "AS IS". SENSATA MAKES NO WARRANTIES OR REPRESENTATIONS WITH REGARD TO THE DATA SHEETS OR USE OF THE DATA SHEETS, EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ACCURACY OR COMPLETENESS. SENSATA DISCLAIMS ANY WARRANTY OF TITLE AND ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT, QUIET POSSESSION, AND NON-INFRINGEMENT OF ANY THIRD PARTY INTELLECTUAL PROPERTY RIGHTS WITH REGARD TO SENSATA DATA SHEETS OR USE THEREOF.

All products are sold subject to Sensata's terms and conditions of sale supplied at [www.sensata.com](http://www.sensata.com) SENSATA ASSUMES NO LIABILITY FOR APPLICATIONS ASSISTANCE OR THE DESIGN OF BUYERS' PRODUCTS. BUYER ACKNOWLEDGES AND AGREES THAT IT IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL LEGAL, REGULATORY, AND SAFETY-RELATED REQUIREMENTS CONCERNING ITS PRODUCTS, AND ANY USE OF SENSATA COMPONENTS IN ITS APPLICATIONS, NOTWITHSTANDING ANY APPLICATIONS-RELATED INFORMATION OR SUPPORT THAT MAY BE PROVIDED BY SENSATA.
